CATALOGUE OF FLOOD PLAIN MAPPING
IN THE PROVINCE OF ONTARIO

Revised January 1985

Preface

This catalogue was produced by the Steering Committee of the Canada/Ontario Flood Damage Reduction Program. It offers a summary of flood plain mapping in Ontario. Part I outlines the status of the Engineered Floodline Mapping, prepared at a scale of 1:2,000. Part II deals with Public Information Flood Risk Mapping and Government Policy. These Public Information Flood Risk Maps are produced at scales between 1:10,000 and 1:25,000.

Flood plain mapping has been a primary activity of the 38 Conservation Authorities in Ontario, where they exist, for a number of years. A Conservation Authority is a local autonomous organization established under The Conservation Authorities Act, and represents a partnership between the Province and member municipalities. The Authorities' primary role is that of water and related land management; therefore, Authorities are formed on a watershed basis. Each municipality within the Conservation Authority's jurisdiction is represented on the Authority's membership.

The Canada/Ontario Flood Damage Reduction Program has, for a number of years, been a key funding source for flood plain mapping in this province. For additional information regarding this program, please contact:

Program Co-ordinator
Canada/Ontario Flood Damage Reduction Program
Conservation Authorities and Water
Management Branch
Ontario Ministry of Natural Resources
Room 5620, Whitney Block
99 Wellesley St. W.
Queen's Park
Toronto, Ontario
M7A 1W3
Telephone: (416) 965-6281

For information on a specific flood plain mapping project, please contact the appropriate Conservation Authority or, for projects outside of Conservation Authorities, the municipal office. A list showing the addresses and telephone numbers of the 38 Conservation Authorities in Ontario can be found as Appendix "A" of this document.

Preface ii

Part I - Engineered Floodline Mapping 1

Ausable Bayfield 2
Cataraqui Region 4
Catfish Creek 6
Central Lake Ontario 7
Credit Valley 9
Crowe Valley 12
Essex Region 13
Ganaraska Region 16
Grand River 19
Grey-Sauble Region 22
Halton Region 23
Hamilton Region 26
Kawartha Region 29
Kettle Creek 30
Lakehead Region 31
Long Point Region 32
Lower Thames Valley 33
Lower Trent Region 35
Maitland Valley 37
Mattagami Region 39
MTRCA 40
Mississippi Valley 41
Moira River 43
Napanee Region 44
Niagara Peninsula 45
Nickel District 51
North Bay - Mattawa 53
Nottawasaga Valley 55
Otonabee Region 57
Prince Edward Region 59
Raisin Region 60
Rideau Valley 62
Saugeen Valley 64
Sault Ste. Marie Region 66
South Lake Simcoe 67
South Nation River 69
St. Clair Region 70
Upper Thames River 71
Municipalities Outside Conservation Authorities 74

Part II - Public Information Flood Risk Mapping and Government Policy 77

Part III - Special Policy Areas 79

Appendix A - Conservation Authority Addresses 80

PART I - ENGINEERED FLOODLINE MAPPING

This section outlines both completed and ongoing engineered floodline mapping projects undertaken in Ontario up to January 1985. This mapping is produced at a scale of 1:2,000. Each Conservation Authority is listed alphabetically, followed by municipalities outside of Conservation Authorities where mapping has been done. Part I identifies:

- the Conservation Authority/municipality;
- the watercourse;
- the date and length of mapping;
- whether mapping was conducted under the Canada/Ontario Flood Damage Reduction Program;
- other comments; and
- the municipality where the watercourse is located.

CONSERVATION AUTHORITY	WATERCOURSE	DATE AND LENGTH OF MAPPING	UNDER FDRP YES/NO	COMMENTS	TOWNSHIP OR MUNICIPALITY
AUSABLE BAYFIELD	Lake Huron	1973	no		Grand Bend Village Stanley, Hay, Stephen, Bosanquet Twps.
	Parkhill Cr.	1975 2.5 km	no		Bosanquet and Stephen Twps. Grand Bend Village
	Ausable R.	1975 6.0 km	no		Exeter Town Usborne Twp.
	Ausable R.	1975 4.2 km	no		Ailsa Craig Village
	Ausable R. (The Cut)	1975 6.5 km	no		Bosanquet Twp. (Port Franks) *
	Mud Cr.	1975 7.0 km	no		Bosanquet Twp. (Port Franks)
	Bayfield R.	1975 2.5 km	no		Bayfield Village
	Bayfield R.	1975 5.0 km	no		Clinton Town
	Bayfield R.	1975 3.3 km remapped 1981	no		Seaforth Town Tuckersmith Twp. (Egmondville)
	Silver Creek	1975 3.7 km	no		Seaforth Town Tuckersmith Twp. (Egmondville)
	Benn Drain	1979 0.35 km	no	backwater study	Lucan Village

* Communities which appear in brackets are not incorporated municipalities under The Municipal Act.

PART II - PUBLIC INFORMATION FLOOD RISK MAPPING AND GOVERNMENT POLICY

Public information flood risk maps are produced once the engineered floodline mapping for all projects is complete. These maps are produced at a scale between 1:10,000 and 1:25,000. In addition to showing the flood risk areas, these maps include the history and nature of flooding in the specific area, an overview of the Flood Damage Reduction Program and other important information for the watershed. These maps are distributed to the public at no charge, when the map is signed by both the Ministers of the Department of Environment Canada and the Ontario Ministry of Natural Resources. Once these maps have been signed, the following will be applicable for the identified flood risk area:

1. No future federal or provincial government buildings or structures that are vulnerable to flood damage will be placed in the flood risk area;

2. Funds from government sources, such as the Canada Mortgage and Housing Corporation, will no longer be available for new buildings or structures vulnerable to flood damage * placed in the flood risk area;

3. Any buildings or structures vulnerable to flood damage * placed in the flood risk area after these locations have been identified by the Ministers will not be eligible for flood disaster assistance; and

4. The two governments will encourage local municipalities to adopt Official Plan Policies and zoning restrictions on development in the flood risk area.

Each of the Public Information Flood Risk Maps are listed in order of when they were made available to the public.

Part II identifies:

- the name of the Public Information Map;
- the watercourse;
- the date the FDRP policies go into effect;
- the number of maps that belong to the series of maps for each area;
- the Conservation Authority and municipalities that are located in the area covered by the Public Information Maps.

* The risk of flood damage to new development can be minimized through appropriate floodproofing measures to the Regulatory Flood level.

PART III - SPECIAL POLICY AREAS

In some areas of the Province, there are portions of communities that have historically existed in the flood plain. Strict application of the Provincial policy statement would severely restrict or curtail infilling, redevelopment or expansions, resulting in social and economic hardship. In such areas, the concept of Special Policy Areas within flood plains is recognized, and controlled development may be permitted, once such areas are designated in local municipal Official Plans.
